

Datasets for Information visualization projects

Gapminder

<https://www.gapminder.org/>

Social indicators worldwide, from the last 200 years

US Census

<https://www.census.gov/data/developers/data-sets.html>

Social indicators from USA census bureau

With for example:

Adults

<https://archive.ics.uci.edu/ml/datasets/Adult>

Salaries, age, relations extracted from Census

Kaggle

<https://www.kaggle.com/>

Repository of datasets. Be careful of rights, always cite source and existing visualizations.

With for example:

Air Pollution in China

<https://www.kaggle.com/datasets/khushikyad001/air-pollution-in-china-2015-2025>

Spotify

<https://www.kaggle.com/datasets/atharvasoundankar/spotify-global-streaming-data-2024>

Avocado prices:

<https://www.kaggle.com/datasets/neuromusic/avocado-prices>

Our world in data

<https://ourworldindata.org/>

Repository of datasets. Be careful of rights, always cite source and existing visualizations.

Mass Shooting Tracker

<https://massshootingtracker.site/>

Statistics of mass shootings in USA

Inside Airbnb:

<http://insideairbnb.com/get-the-data/>

Rentals from Airbnb.

Data world European Soccer DTA

<https://data.world/data-society/european-soccer-data>

25k+ matches, players & teams attributes for European Professional Football.

FiveThirtyEight datasets

<https://data.fivethirtyeight.com/>

Small datasets related to data journalist.

Tableau Sample data

https://public.tableau.com/s/resources?qt-overview_resources=1#qt-overview_resources

Smaller datasets, probably with some tableau visualizations already associated with them

* You can choose any other dataset, previous notification and validation from the professor
