end.

Evaluation:

Dashboard task: 11th November, 40%

Storytelling task: 10th December, 40%

Final exam: (to be defined), 20%

Tasks in teams up to 3 people

The subject is 3 ECTS, and wants to provide tools and strategies
to start your path

Why this subject in a such technical master degree?

Why ...?

To accompany you,

Why ...?

To accompany you,
to guide you,

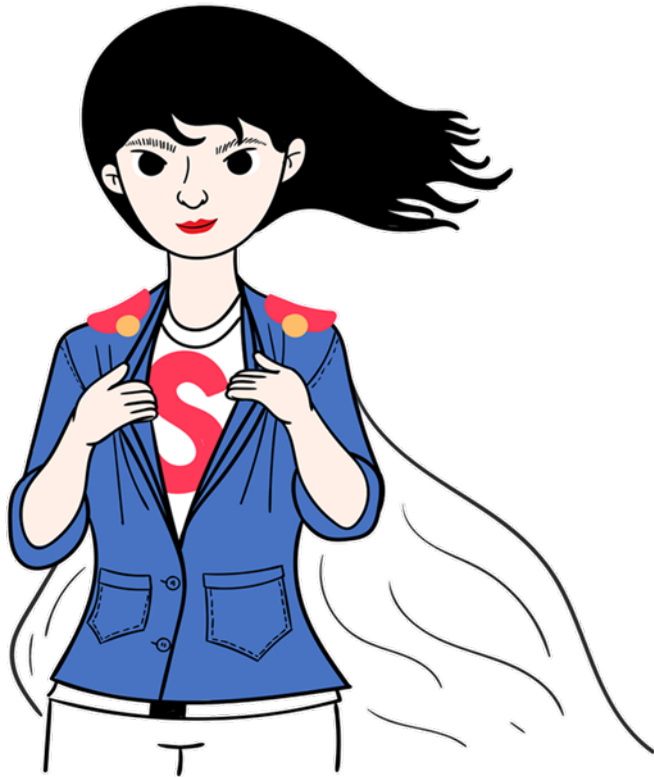

Why ...?

To accompany you,
to guide you,
to provide you with tools

in your journey **from**
data technician

To data hero

Goals

- 1 To know the **theoretical foundations** of information visualization
- 2 To learn the **basics of two visualization languages**
- 3 To be able to select the best visualization for a specific **data, task** and **user**
- 4 To apply the theory to two projects and learn **the process of creating a visualization**

What skills does a
data hero possess?

What skills does a
data hero possess?

You'll have to be...

1

A graphic designer

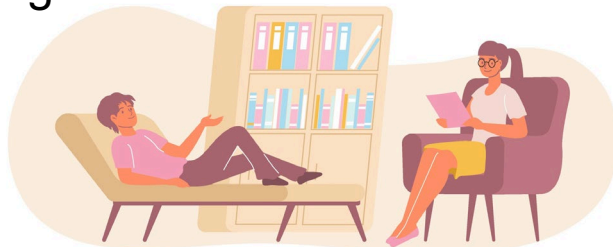

2

A treasure hunter.

3

A psychologist.

4

A storyteller

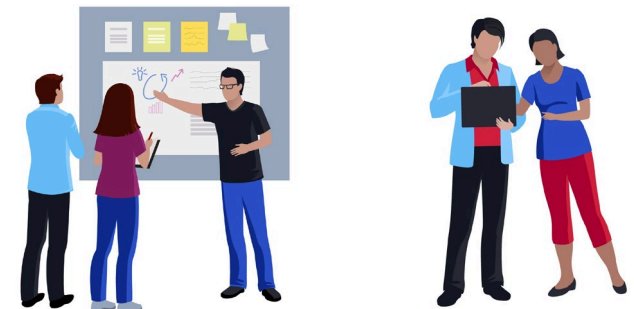

5

A youtuber.

6

But essentially, a **consultant**

Thanks and Rewrap
